Read the following passage and answer the questions that follow:

Games, though essential, should not become be-all and end-all of student life. Generally the sportsmen waste too much time on them, and fail in their examination. One must never devote more than an hour to sports, and after that, should not even think about them. Again, if a player plays a game rashly, there is every danger of his breaking a limb. If it is played without a spirit of sportsmanship, it can lead to bad blood and quarrels. In some of the colleges there is a tradition that if the visiting team is winning a match, the home team plays foul, picks a quarrel and tries to injure the visitors. But in spite of all these minor defects sports are very useful in keeping the students busy and in developing their personalities. India expects its citizens to have the qualities of true sportsman. If we all acquire these qualities, there will be no narrow mindedness, no corruption and no injustice. There will be independence in the real sense of the word.

- (a). What harm do games do to some students?
- (b). Why do players break their limbs sometimes?
- (c). How do sports develop the personality of students?
- (d). What would happen if we all acquire the qualities of a true sportsman ?
- (e). Suggest a suitable title for the passage.
